WORK EXPERIENCE

Devsinn Technologies

September 2024 - February 2025

Full Stack Developer (Internship)

- I was responsible for solving bugs and implementing new features in existing projects.
- Collaborated with a team of 4 to implement restful apis using django and django rest framework.
- Optimized database queries using sql, reducing query response time by 20%.

Freelancer

2025 - Present

Full Stack developer

- Successfully delivered multiple freelance projects, including responsive websites and web applications, ensuring on-time delivery and client satisfaction.
- Collaborated with international clients to gather requirements, design solutions, and implement full-stack features using Python (Django), HTML, CSS, Bootstrap, and Tailwind CSS.
- Provided ongoing maintenance, bug fixes, and free updates, building long-term client relationships through quality work and clear communication.

EDUCATION

BS Computer Science

2025 - Present

Virtual University Pakistan

PROJECT

Task Manager Pro

- Designed and developed a multi-role task management SaaS with user authentication, role-based permissions (Admin, Manager, Member), and secure project-based workspaces.
- Built core task management features including creation, assignment, prioritization, due dates, and status tracking with a personalized user dashboard.
- Implemented collaboration features such as task comments, @mentions, notifications, file attachments, and multiple task views (List, Kanban, Calendar).
- Integrated with third-party tools (Google Calendar, Slack/MS Teams, Zoom/Meet) and implemented email notifications for task updates and reminders.
- Developed advanced reporting and analytics including workload distribution, task completion trends, and exportable reports.
- Created an admin panel for managing users, projects, activity logs, and global system settings.
- Added SaaS-ready features such as onboarding flows, free/premium tier setup, social logins, and user feedback collection.

SKILLS

- **Frontend** : Html, Css, Bootstrap, Tailwind Css.
- **Backend** : Python, Django, FastApi.
- **Databases** : SQL, MySQL, PostgreSQL.
